## MEET NEXT IN ST. PAUL

The Encampment of the G. A. R. Will be Held-There in 1396.

THE NEW COMMANDER-IN-CHIEF.

Colonel I. N. Walker, of Indianapolis, Chosen to Succeed Retiring Commander Lawler-The Ladies of the Two Auxiliary Organizations Will Remain Divided.

LOUISVILLE, Sept. 13 -The thirrieth inational encampment of the Grand Army of the Republic will be field in St. Paul in 1896, with Colonel I. N. Walker, of Indianapolis, as commander in chief.

The encampment proper, the Womans' Relief Corps and the Ladies' Circle will dingat 10 a.m. and keep in session all day. The gentlemen of the encampment almost completed their work, while the ladies of the two auxilinvies did not get much done. There has been considerable azitation about uniting them this year, of remited brothschool and citizenship, but the Indies of the auxiliaries are as far opart as ever in spirit, if not in purpose, and they will remain divided.

The Laties' Clade deviced yesterday to the reports and in discussions therewith for the perfection and extension of their organization

The Women's Relief Corps had the trouble between the factions of Mrs. Clark and Mrs. Sherwood, at Camon. O., exempli fled by the sheriff who entered without the password to serve an injunction of the courts on the national officers, restraining them from oasting Mrs. Ch.ek. When the facilificationed the lam's would not tell him who was the office; but a friend of Mrs. Charlt soon pointed out the officers. and the order of the court was served.

Mrs. Wheelock M. Tyler, the wife of the mayor of Louisville, delivered a fine address of welcome to the cities, as did Mrs. General Buckner to the state and south.

The Confederate veterans General Buck nor and Mr. Watterson took part again in the receptions and campfires, praising the good will that had brought peace in ceality as well as in name. After delivering wel coming addresses during the day Mr. Warterson last night delivered his lecture or Abraham Lincoln, and tonight General Gordon delivers his becture on "The Last Days of the Confederacy," in both of which the ex-soldiers take great interest. General Buckner is kept busy in being called to

Today the blue and the gray meet in a grand barbeene, tendered by the latter to their guests. Tonight's programmes for the different camplices are very elaborate. At the afternoon session each depart ment presented its name for the committee to frame resolutions on the death of the coung militiumen killed by the explosion Wednesday. The committee was directed to attend the funeral in a body today.

In the contest for senior vice commander General E. H. Hobson, of Kentucky, was elected. C. E. Cosgrove, of Washington, was elected vice commander.

### They Sampled the Contents.

Los Angeles, Cal., Sept. 13.-A colored man left a bottle at the baggage room of the Downey Avenue Station of the Santa Fe road, with instructions to give it to the colored porter on a sleeping ear. It was supposed to contain wire. The train did not slop, and two men. Agent W. T. Thompson and O. L. Morton, who lives at Santa Monica, opened the bottle and drank about one-quarter of the contents. They were soon taken with violent cramps, and both died. The physical who artended the men say the bottle contained strychTHE BICYCLE TOURNAMENT.

Bald, Sauger and Newton Carry off the Honors at Springfield.

SPRINGFIELD, Mass., Sept. 13. - The tournament is over, the rading season of 1805 is practically finished, and Bald. Sanger and Newton Berry Hemly established their ownership to the ritle, of champion in their respective classes.

There was a garnering of 7.0 to yesterday. and the track was in its best condition. The interest was divided between the mile open. Class B, the two mile professional handicap and the attempt of F. J. Titus to beat his record of hist year, when he rode 29 miles, 1,479 yards in an hour.

In the Class B race Wells and Titus did not appear. The sprint was not begun until the crowd had almost reached the turn. Except for the fact that Kiser had got a good lead on Cabanna Bald, who was in fourth place, would have been unable to get through, but he saw the hole, made a dart for it and crossed the tape with a good length to his credit, leaving Kise and Cabanne to fight it out. Tyler and Johnson did not start, and Sanger was the only man on the scratch. At the mile and a half mark he caught his field, and the time card was hung out for 4,24 3-5, a new world's record for the two mile professional handicap.

In the hour ride Titus began to break records on the seventh mile, and had covered at the end of the hour 27 miles and 185 yards, beating the American record. but not equaling the world's record made abroad by Meixell two weeks ago.

Starbuck but the five mile professional record, paced by a quad, and also the class B record, finishing the distance in 10.11 1-5. Fred Loughend, of Sarnia, Out 1 reduced the class A unpaced record of 5.02 2-5 far two miles to file.

THE GRAND STAND FELL

Many Injured While Witnessing a Pyrotechnic Display at Louisville.

LOUISVILLE, Sept. 13,-While 100,000 persons were watening Paine' fireworks display along the river front at 49 o'clock last night a portion of the grand stand on which were seated at least 19,000 people gave way and many were injured. No fatalities are reported.

The grand stand which fell was about 400 feet long and sixty for wide. It was the lower part and only elevated about two feet. Immediately beyond this part. on an elevation of eight to ten feet, there were 50,000. That no one was killed is one of the marvels. The platform on which the seats were placed swerved to the rear and then settled to the ground with a crash. As it careened, the planks of which the seats were made were forced together and the feet and legs of hundreds of the spectators were caught, as in a huge trap.

A number of G. A. R. veterans who were witnesses of the accident said they aided a large number of people who had been bruised and injured about the legs to carriages and sent them to hotels or their homes. They did not stop in the excitement to get their names.

The Alleged Filibusters Indicted.

WILMINGTON, Del., Sept. 13.-The grand jury in the United States district court yesterday found true bills of indictment against the alleged Cuban filibusters, including Ralph De Soto, of this city. The vote stood thirteen for indictment-to six against. The trial of the suspects has been fixed for next Wednesday.

ROBERT J.'S VICTORY.

The Great Son of Hartford Establishes a New Record.

LOUISVILLE, Sept. 13.—Not only the grand stand, but the standing room capacity of the Louisville Driving Fair association was taxed yesterday afternoon. A fast track and a bright sunshine favored the great pacing race which Robert J., John R. Gentry and Joe Patchen were to battle for supremacy.

At 2:30 o'clock, when the three horses scored for the opening heat, it is estimated nearly 10,000 people were on the grounds, Robert J. the great son of Hartford, came off victorious; but for the fact that Joe Patchen went into the air when within forty yards of the wire in the fourth heat there might have been another ending. Robert J., however, was as steady as a clock, and not once during the four heats did he go off his feet.

The fourth heat, which was paced in 2.01½, establishes a new record, being the first fourth heat ever trotted by any horse in that time. There were seven races on the program, but it was necessary to carry both the 2.11 and 2.16 trots over until today, while the 2.24 trot was not reached.

Navaradine died as a result of Wednesday's seven heats in the 2.17 trot, which was not decided. She was valued at \$2,500 and owned by J. Swathen, Jr., of Lyan,

Frahmen Paisly Ibjured.

ALTONA, Ills., Sept. 13.-A train of fifteen oil tanks on the Chicago. Burlington and Quincy railroad broke in two near this station. The rear half of the train ran into the front half with terrific force. The tanks were smashed and the oil took fire, setting fire to several houses at the side of the tracks. The houses were saved, but the cars were entirely consumed. James Welch, of this place, was fatally burned and Charles Carlson, of Galesburg, fire-man of the locomotive, was so seriously injured by the collision that he will die.

Osear Nein. axed 12 years, ran into the street and caught hold of the iron frame of the lamp. In an instant 1,500 volts of electricity shot through his body and into the ground. Seeing the boy's peril the inspector pulled the rope attached to the lamp, raising it into the air, and the boy fell to the ground in a senseless condition. The boy was restored to consciousness after hard work, and conveyed to his home.

Holmes Again Indicted.

PHILADELPHIA, Sept. 13.-H. H. Holmes, the murderer and insurance swindler, was indicted yesterday by the grand jury for the murder of B. F. Pitezel, whose mysterious death occurred here a year ago, and the subsequent collection of \$10,000 insurance on his life by Holmes led to the unveiling of the latter's remarkable criminal record. Indictments for murder have also been brought against Holmes in Toronto and Indianapolis, and proceedings are pending in Chicago.

## DEFENDER SAILS ALONE.

Withdrawal of Valkyrie Because of Interference.

THE CUP WILL REMAIN HERE.

The Britisher Crossed the Line, However, as a Matrer of Formality, but Immediskely Withdrew-May Race Off Newport or Marblehead.

NEW York, Sept. 13.—The international series between Defender and Valkyrie for the America's cup is ended. On the whole it has been an extraordinary series, and while the result is satisfactory to the American people, two, at least, of the contests that went to make up the match

Defender won in a clean race on Saturday, on Tuesday last she crossed the line behind the English boat, but was awarded the race on a foul, and yesterday she had a walkover. Yesterday's occurrence was all the more unfortunate, not only because a great crowd had gathered to witness the struggle, but because the weather conditions were such as to lead many to suppose that of all days Valkyrie would be in her element.

Lord Dunraven had said Wednesday night, and he said it most emphatically, that he would withdraw his boat on the morrow if an absolutely clear course was not provided. He claimed that during the previous race his boat had been greatly interfered with, and as everything depended upon the outcome of the third of the series he adhered to that decision so closely that Valkyrie merely crossed the starting line and then retired from the contest. Defender was well in advance when the handicap gun was fired, continued on her journey, and went over the course well within the time limit.

By her three straight victories. Defender retains the historic cup for America.

The race scheduled for yesterday promised to be a more exciting one than either of the two preceding, for it was to be expected that every effort would be made by Dunraven, after Tuesday's disappointment, to score a victory with the boat he had brought so far.

Wednesday Valkyrie had been tuned up to the highest pitch in anticipation of yesterday's contest. Several alterations had been made, and those upon whom her sailing qualities depend most largely were prepared to expend every ounce of inuscle and skill to bring her over the line a victor. Bord Dunraven had expressed himself as

apparently satisfied with the decision rendered by the cup committee on the forling of Defender by his boat, and the matter had seemingly been settled so amigably that it was a question in the minds of the general public if Tuesday's race would not be resailed.

The preparatory gun was not fired until about twenty minutes after the fixed time. In the meanwhile a gun was fired from the committee boat and a signal sent up de-noting that a delay would take place. Then the announcement was made from the patrol boat that Lord Dunrayen had refused to race unless a clear course was guaranteed by the committee. So far as the committee was concerned it seemed impossible to do more to secure open water than it had already done, for when the preparatory gun was fired, the nearest boat to the racers was fully half a mile away, and the great majority of the excursion steamers and other craft were much further off in the distance.

The starting gun went at the appointed time, and almost at the same instant Defender crossed the line. Valkyrie's commander had so maneuvered her that she was still a long way off, and just a moment before the handicap gun was fired she, too, crossed the line. It was evident to those who had been watching the English boat that she had no intention of racing, and so it proved, for no sooner was the line crossed than she hauled to on the starboard tack, instead of following her rival out, and passed under the stern of the lightship.

A score or more of steamers started at once for Valkyrie, while half a hundred steamed in the direction Defender had taken. The American boat was making good headway with her spinnaker set, and after starting at 11:20:21 rounded the first mark at 1:23:58, and finished at 4:04:36. In the light breeze this was a particularly good performance, and the beat to wind ward was much faster than had been antiéipated, för during one part of that jour nev the very light breeze seemed to die out almost entirely. But even in that Defender made good headway, and when she crossed the home line, the winner of the race, the winner of the series. Defender, in fact as well as name, she was greefed and the belching of cannon and the cheers. of thousands for the gallant victories, she had won.

It is understood that valuable trophies may be offered for contest between the yachts Defender and Valkyrie off Newport or Marblehead.

The Atlantic Yacht club contemplates an attempt to arrange a race of a series between Vallayrie and Defender for a special cup to cost about \$2,90). Duncaven will be allowed to arrange details, if the plan materializes, to choose the waters by tween Sandy Hook and Marblehead, and the date within the limit of Oat, I, to an range that the public by kept in ignorance of the dates, and to select rules of cithe the New York, Atlantic or Larchmont clubs the three leading clubs of the country, to govern the race.

### LORD DUNRAVEN'S OBJECTIONS. The Excessive Crowding of Excursion

Steamers Causes Him to Quit.

LONDON, Sept. 13 - Renter's News Agency sent a request by cable to the Earl of Danraven for a statement of the reas as for his action in withdrawing from the third race for the America's cup. The f Howing reply has been received from Now York:

"Owing to the exessive crowding by steamers at the first two races, especially at the start off and the last tea miles of the second race, I notified the cup commit- | vestion, it will positively go there,

tee on the 10th inst., requesting that the letter be not opened until after a decision had been rendered with regard to the foul at the start of the second race, that owing to the danger of a serious accident by collision with the excursion steamers, and owing to the absolute absurdity of carrying on races under such conditions, I should decrine to start unless some arrangement were made to race in clear

"I requested a postponement of yesterday's race, with a view of arriving at such an arrangement. The committee found it impossible to concede this. I then notified them that I should be at Sandy Hook lightship yesterday for the purpose of giving Defender a start."

### THE DURRANT TRIAL.

To Accommodate a Juror 2 Recess Is Taken Until Monday.

SAN FRANCISCO, Sept. 13.—Pouring rain did not lessen the crowd of curiosity seekers at the trial of Durrant yesterday. As the defense will lay stress on the inability of one man to carry a heavy body up such a steep flight of stairs as leads to the belfry of Emanuel church, the prosecution was elated at the the testimony of Richard Charlton, a grocer, who had weighed Blanche each week for six months. Her greatest weight was 121 pounds.

Henry Shalmont, a cable conductor, tes tified that Durrant and Miss Lamont had ridden together to school the morning of April 2. He had seen them frequently before, and his attention was particularly directed to them on this day by their evident intimacy.

Herman J. Schlagler, a classmate Durrant at the medical college, restified that four days after Blanche had disappeared Durrant had asked Schlagler if he remembered speing them together, and if he did not remember that Durrant parted from Blanche before the former left the city. Witness was unable to remember. Durrant volunteered the information that Blanche was missing. The prisoner told the witness that he feared she had gone to

some questionable abode.

Miss Minnie Bell Edwards, a classmato of Blanche, testified that on the afternoon of April 3 Blanche Lamont and herself left the Normal school together. Miss Lamont was soon joined by a young man, whom Miss Edwards recognized as Durrant. Miss Edwards has sow the couple at the corner of Market and Powell streets. where she left the car.

To accommodate a jurier a recess was here taken until Monday.

## CHOLERA IN HONOLULU.

A Seaman on the Bennington a Victim of the Scourge

THIRTY-FIVE DEATHS REPORTED.

Az Appropriation of \$10,000 Made to Stamp Out the Disease-Ex-Queen Lillnokalani and Other Political Offenders Pardoned.

SAN FRANCISCO, Sept. 13.—The steamer Australia arrived yesterday from Hono-lulu, bringing the following advices to the Associated Press: HONOLULU, Sopt. 5.—Forty one cases of

cholera have been reported to date, with thirty-five deaths. The disease attacks only the natives. Every effort is being made to stamp it out. No island steamers are allowed to leave port without first remaining in quarantine for five days Passengers must undergo the same ordeal The cholera, according to the general

theory, was brought to Honolulu by the

steamer Belgic, which arrived on the 9th of August with 536 Chinese immigrants on board. The vessel had a clean bill of health, but, following the custom, the Chinese were placed in quarantine. On the 18th of August it was learned that three of the immigrants had died, two from bowel complaint and the other from exhaustion. Physicians made a careful examination of the first cases, and declared that it was not cholera. More cases broke out soon, however. By this time the disease was declared to be genuine Asiatic

Up to Aug. 23 five cases of cholera had developed at Honolulu, with four deaths. On the evening of the 24th another ease was reported. For five days there were no cases reported and people became easier, believing that the disease had been stamped out. But it was only a respite. On the 30th nine cases were reported, five of which proved fatal. One of the unfortunates was a seaman on the Bennington, named W. H. Goedel. He was taken ill while on board the vessel, and lived but a short time. He had bathed in the harbor and it is thought contracted the disease in this manuer. On the following two days four cases were reported, and on the third seven cases developed.

With the exception of the Bennington sailor the scourge has attacked only natives, the chief difficulty, in dealing with the cholera here being the ignorance and unclean habits of the natives and Chinese. The natives, of course, have no conception of the nature of the disease, its origin or the proper treatment of it. In this, as in all other respects, they are mere children and must be treated accordingly.

The physicians are gradually locating the germ centers, but new cases arise in unexpected quarters, and there has not been a sufficient number of facts to enable any safe generalization to be made.

The council of state held a meeting yes terday afternoon and evening, and after appropriating \$10,000 for the expenses incurred by the board of health, the matter of pardoning political prisoners came up for consideration. The executive recom-mended that Carl Widemann, the four Lane boys, Junius Kaao, Joe Widdleffeld and thirty-nine others be pardoned. The council adopted the recommendation.

At the same inecting ex-Queen Liliuokalani was pardoned also, and the others will be liberated as soon as the pardons

Special Albany Letter. Upon announcing himself as a candi-

date for re-election as comptroller James A. Roberts came out with a statement in which he undertook to clear his administration of the Comptroller's office of complicity in the 3.24 tax rate, and to reply to the charge that lax administration and inefficient collection of the indirect taxes, coupled with sight taxations of corporations for political or other reasons, had been an important factor in producing this burdensome tax-rate. The gist of his statement, which was a statistical exhibit of figures not supporting the comptroller's conclusions when analyzed carefully, was that while Comptroller Campbell, upon his retirement from office, was collecting revenue from 2,152 corporations, Comptroller Roberts is at present collecting from 4,011 corporations. This point of the increase in the number of corporations collected from is paraded with a flourish of trumpets, with the idea, perhaps, that people will thereby be deceived into ba-Heveing that the question at issue (as to the relative amount of revenue collected by the present comptroller and his predecessor) has been met by Comptroller Roberts, which it has not at all. Indeed, the fact of increased facilities for collection and sources of taxation simply makes his case worse on the face of it. Upon his own statement, he hopes to be able to collect from 4,011 corporations almost, but not quite, as much revenue this year as Comptroller Campbell collected in 1893 from about half that number, or 2,152.

Now another thing that Comptroller Roberts failed to explain to the people in this statement of his, was that he is really no more entitled to credit for the increase in the number of tax-paying corporations (from which he gets a reduced revenue for some reason, whether political or otherwise) than the Mikado of Japan. The facts of the case are

CAMPBELL GOT THE BILL PASSED Comptroller Campbell in 1892 got the Legislature to pass a bill compelling all foreign corporations to file a notice with the Secretary of State, of their doing business in this state. Before this the comptrollers had to use the City Directories and other books for the purpose. of obtaining the list of corporations doing business in this state, as they had no other way of doing it.

It was only during Comptroller Campbell's term that the Legislature granted an appropriation to investigate the different corporations doing business in the state and to compel them by these investigations to pay their just amount of taxes.

Hundreds of new corporations are organized every year and a large number of these are taxable and this would add to the list. As Comptroller Campbell stated while in office, as soon as he was satisfied that the larger corporations of the state were paying what they ought, he intended to place every corporation on the paying list, and this he was doing when he left office, and he had largely increased the taxes from this source. The work of increasing the number of corporations from which these taxes can be collected is now largely routine and clerical in character. Clerks in the comptroller's office can do that by searching the records of corporation

WHERE DISCRETION COMES IN. The comptroller himself, however, very largely exercises his discretion as to the amount of taxes to be levied against individual large corporations and a comptroller disposed to be lentent, for political or other reasons, toward the wealthy corporations, could very readily make a considerable difference in the amount of taxes they must pay. if this should be done for political purposes, the large corporations or those paying the large taxes would be the ones to be favored, as they are the ones whose contributions would be large. Why is it that Comptroller Roberts admits his inability to collect from these sources as much as his predecessor to office did? If the falling off is not due to political leniency to favored corporations, what is it due to? Maybe Senator John Raines was not

severe enough in his examinations last summer, when he was working for the Comptroller at the lucrative salary of \$250 00 a month, or \$16.00 a day, examining these corporations and representing the (Reform) Comptroller of the state. COLLECTIONSTHAT "COMEHIGIL"

Another feature of the Comptroller's office and its internal affairs to which Comptroller Roberts for some reason neglected to call attention is the extraordinarily large and increasing amount which it now costs to collect the collateral inheritance taxes. Here is a statistical comparison, taken from the reports of the Comptroller for 1893 and 1894, respectively, of the amounts collected and the costs of collection of the collateral inheritance taxes by Comptrollers Campbell and Roberts, an exhibit which Roberts probably overlooked in the hurry of the moment, but which is as interesting as anything in the entire Comptroller's report to tax-

BY COMPTROLLER CAMPBELL. Amount collected-Three and a hall millions.

Cost of collection-\$24,000

BY COMPTROLLER ROBERTS. Amount collected-Seventeen hundred thousand. Cost of collection-\$46,000

In Comptroller Roberts' next statement he might perhaps incorporate a list of these well-paid attorneys, so that the people can judge whether it was necessary to expend this large amount of money, double the amount expended by his predecessor, at the same time only collecting half the amount of taxes, His failure in this will make a difference of from forty to fifty hundredths of a mill in the tax rate or four to five

thousand dollars a day to the tax payers of the state, to the disadvantage of

the present Comptroller's administration.

The "hard times" plea will not do, for Comptroller Campbell, despite the hard times, expected to increase these revenues in 1894, had he been re-elected, by from \$300,000 to \$500,000. The rebates

granted various corporations by previous Comptrollers expired about that time, and the state was getting the full corporation tax where it had been get-ting only about half. Several large estates were unsettled when Roberts took office and he got that benefit. Had Comptroller Roberts simply equalled Comptroller Campbell's 1893 record in collecting indirect taxes (not excelled it, as that official expected to do if reelected) the 1895 tax-rate, despite Republican extravagance, would be not more than 2.70.

It is hoped that when next Mr. Roberts wishes to give out figures and a statement of the transactions of his office to the people, they will be full, complete and show precisely what he has done in the way of managing the affairs of the Comptroller's office, and not colored and misleading like the recent

### HOW ABOUT COLVIN?

Come Facts That Tend to Make His Path no Bed of Roses.

Although it is thought likely that they will all be renominated whether Robcrts is or not, the path of the rest of the "old ticket" is not altogether strewn with roses. State Treasurer Colvin, in particular, is not enjoying life as he was wont to do of yore.

Not only is he vigorously opposed by that enterprising and aggressive Republican statesman, ex-Congressman Henry G. Burleigh, who makes semiweekly trips to New York to demand of Platt that Colvin be left off the slate but he has a much worse situation to contend with in regard to the hotel men's opposition.

The hotel men of the State bitterly resent the fact that Mr. Colvin still keeps in his employ as his private secretary Charles W. Anderson, the real author and promoter of the so-called Malby civil rights bill, a bill which greatly facilitates the levying of blackmail upon hotel keepers, and is so framed as to secure for colored men privileges not enjoyed by white men. State Treasurer Colvin has undertaken to disavow all responsibility for Anderson's actions in connection with this demagogic measure, and also for the tour which Anderson and other colored men made to the several hotels of New York city to see whether the law was being enforced, on which occasion Anderson and his companions are alleged to have made themselves very offensive. But the hotel keepers in reply to that assert that if Mr. Colvin really disave-ws responsibility for Anderson, the way for him to prove it is to dismiss Mr. Anderson as his private secretary.

It is asserted that the opposition of the hotel men will cost Colvin not less than 35,000 votes and it is known that some of his associates on the State ticket are afraid that his renomination will therefore defeat the entire outfit. The colored men, on the other hand, resent the disavowal of Anderson by Mr. Col-

As for the others, Attorney-General Hancock and State Engineer Adams were nominated in 1893 because nobody else would take it, and politicians say that while they represent no personal strength, they are likely to be left on this-year rather than precipitate a general fight in the convention.

It is regarded by some politicians. however, as significant of a general "turning down" program even at this late day, that the Columbia county convention, controlled by Platt's lieutenant. Louis F. Payn, endorsed Judge J. Rider Cady for attorney-general.

### POLITICAL NOTES.

The may to get together is to get together.

"Fixing the blame" for 1894 or 1893 is all right, but let's fix the Republicans first. Platt will be absolute dictator of the

Republican convention. The only way to strike a blow for freedom is for the independent conscience Republicans to help defeat him at the polls. It is now understood that in case Platt

can elect Judge Martin of Binghamton to the appeals bench, State Senator O Connor, he of the wrathful visage and the unbridled oratory, is to be his successor as judge-of all things in the

Up in St. Lawrence county a prominent Republican, a deacon in the church has confessed to the district attorney that he accepted a bribe in a recent senatorial contest. Thus early do the "reform" market quotations show an upward tendency.

The Colored Brother Not Wanted.

The James G. Blaine Club, a leading Republican organization of New York city, has recently blackballed Edward S. Flow, a colored applicant for membership. Twenty blackballs were deposited out of only 65 votes cast. Speeches were made by Assemblyman Pavey and others warning the club of the danger of rejecting a man on account of his race, but to no avail. Joh E. Hedges, private secretary to Mayor Strong, was exceedingly active in bringing about the rejection. But had Flow been refused admission to a hotel that would be a misdemeanor subject to \$100 fine under the so-called civil rights law passed by the Republican party last winter.

High Taxes in Rochester, Too. Figures issued by the Republican Municipal League of Rochester, indicate that the 1895 tax-levy for that city under the Aldridge regime, will be largely in excess of that of 1894. For 1894 entire it was \$1,740,000, while for only nine months of 1895 it is \$1,690,000, and it estimated at not less than \$1,890,000 for the entire year. These are estimates of Republicans who are striving to rid Rochester of the disgraceful ring rule of which State Superintendent of Public Works Aldridge is the creator and head.

The Benson Iron mines, near Carthat Jeneson from mines, hear that that Jeneson founty, will be opened again, the divence in price and the great demand for steel billets being such as to that the mining profitable there. It is expected that work will be resumed soon after pept. 1st.

The Couch-Beecher faction was downed in the Sullivan County Republican convention, at Monticelle, yesterday. The delegates to the State convention are: W. L. Thorn ton, Edward O Green, Henry Krenrich, Matt Decker and Harvey J. Sarles. They are uninstructed, but will vote on all questions as Boss Odell directs them.

The Rapublican convention in the Twenty-seventh Senatorial district has been in session for three days, and has taken 432 ballots, which have each resulted in seven votes or each of the three candidates. A great deal of bitterness has been developed and the convention seems to be further from a choice than it was when the first ballot was taken,

The Pennsylvania Coal Co., following the lead of the Lahigh Valley, Reading and other companies, announced, yesterday, an advance of from ten to thirty cents a ton in tidewater prices for coal. It is stoutly decied that the advance was the resuit of a combination among the companier, but it is a significant fact that none of the coal companies will make contracts for future delivery until after Oct 1st.

Evidently Obio Democrats are not to be paupers in this fall's campaign Senator Brice notified the State Committee, yesterday, that his contribution would be \$200,000, and that the money was ready whenever it was wanted. Congressman Sorg is understood to be willing to contribute the same amount, and Tom Johnson and Mr. Thomas have \$100,000 each to spend for the Democratic cause. Even money was bet in Cincinnati, last night, that Campbell would carry the State and that Brice would succeed himself as United States Sena-

Fassett threw to the floor a Platt man who attempted to preside over the primary in his district without having been elected.

Harmony moved on well greased wheels at the Republican convention for this Assembly district at Gosben, yesterday. There wasn't a creak of a squeak while the machine did its work. Boss Odell got what he wanted, a subservient delegation to the State Convention. Col. Dickey select ed delegates to the judicial convention, who are expected to vote for him from start to finish. Resolutions of confidence in Mr. Odell as State Committeeman were unanimously adopted and the stereotyped resolutions approving of Gov. Morton's administration and favoring his nomination for the presidency were passed. From the point of view of the practical politician the convention was out of sight in the matchless beauty of its harmony.

A DASH OF HAIL.

Many Windows Broken at Mount Rope -Damage in Other Localities,

A narrow strip of country to the westward of this city was pelted with hall stones during the shower, yesterday afternoon. The hall storm preceded the rain and though it was all over in less than a minute the hail stones were so large and came down in such enormous quantities that much damage was done.

At Mount Hope, where the storm seems to have been most severe. many panes of glass were broken and a panic was created among horses tied where an auction sale was in progress.

The storm was quite severe at Olisville, but the damage there was much less than at Mount Hope, and at points a short distance north and south of that village there was no hail and very little rain. The hail cloud soon exhausted itself, for there are no tidings of damage from points south of where the storm crossed the

Mount Hope road. Considerable wind accompanied the storm and the most serious loss occasioned by it was the knocking from the trees of quantities of fine

WILBUR E. BRAGG, FORGER. | beavily for the past hour," . rdio.

ARRESTED AT THE OCCIDENTAL HOTEL, COSHEN, YESTERDAY.

Recognized by a Goshen Man and the Police of this City Notified-Will Not Talk-Inother Forged Check and Dr. Cordon's Coal Bill in His Pockets-Letters and Documents That show He Has Worked Other Places.

Wilbur E. Rragg, the man who uttered forged checks upon Messrs. Charles Higham, John A Wallace and C. J. Everson, was arrested, last evening, at the Occidental Hotel in Gosher, by Officer Timothy H. Walsh.

The arrest was made possible by the publication in the Argus, Wedorder of John Freeman, twelve dolnesday, of the fact that the forgeries had been committed.

A Goshen man telephoned to this city, yesterday afternoon, that a stranger who answered the description of the forger was at the Occidental Hotel, and that, as was the case with Bragg at the Commercial Hotel, his steady tipple was Bass ale.

This information was at once com-Eureka House, Reuben Riggs, promunicated to the police, and Officer Walsh was dispatched to the county

He proceeded at once to the Occidental Hotel and saw his man sitting in the reading room. Walsh had seen the man in Middletown and had spoken to him here. He accosted him as Br-gg and the fellow answered promptly. Walsh immediately placed him under arrest, and the fellow returned to this city without giving the officer any trouble. He was searched and placed in the This morning, when arraigned be-

When told his rights he refused to plead to the charge of forgery in the second degree, and said he would waive examination.

The Recorder, therefore, held him in default of \$2 500 bail to await the action of the Grand Jury. He was taken at once to Goshen Jail. THE FORGER'S LETTERS AND DOCUMENTS.

From letters and papers found upon the man's persor, it is evident that his name is not Wilbur E. Bragg, but Thomas Richard Crawford. There are letters written in identically the same handwriting bearing both signatures.

Those signed Thomas R. Crawford are letters written in response to advertisements for positions as bookkeeper and typewriter. Letters addressed to that name from Mr. H. G. Walters, of the Middletown Ribbon Company, of this city, and the Manbattan Spirt Mills, of Paterson, tell 'Mr. Crawford' that his answers came too late and that the positions are filled.

There are also a number of business cards bearing the name "Thomas R. Crawford, 56 Bridge street, Paterson, N. J, representing A. MacPhail, practical printer," and other cards as follows: "Thomas R. family returned from a two months' Crawford, 39 Fair street, Paterson. visit to Middletown, Wednesday N. J., representing C. H. A. HULT KENNEDY, Registrar. Dated this 9th day of December,

A. D. 1874. Another card bears the name "Thomas R. Crawford, Nussey's Roachine, Paterson, N. J."

There are letters from A. W. Nussey, the manufacturer of Roachine, to Mr. J. D. Bogart, assistant postmaster at Paterson, requesting a testimonial, and the latter's reply granting the request.

LETTERS TO HOODWINK LANDLORDS.

Numerous letters and telegrams addressed to W. K. Findlay & Co., 24 Broad street, signed by "W. E. Bragg" and "Wilbur E. Bragg," were never mailed to that concern. There is no such firm reported in Taylor but to be there and see that Dun or Bradeiree, and it is evidently a fictitious concern, and the letters were written with the evident intention of blinding the proprietors of the hotels upon whose noteheads the orders were written and whose envelopes were used. The Commercial Hotel seems to

have been the man's headquarters in this city, and while here he cid a splendid business-on paper. His letters are to the effect that "T. W. Skidmore & Co." (T.H. Skidmore.Jr., & Co.) bought several carloads of "Pillsbury's Best" flour, and in a letter to Findlay Bragg states that "Skidmore wants to buy more than I am willing to sell, but the bank people say he is all O. K., and that he is satisfied to take 100 barrels." Runyon & Son bought thirty barrels, C.

Gillen twenty-five barrels, Hughes & Bryant." Middletowo, N. Y., seventy-five barrels, and "E. W. Hughes & Oo." seventy-five barrels. PREPARING TO DO GOSHEN.

Two letters written at the Occidental Hotel in Goshen, yesterday, contain orders from "Russell & Homer" thirty-five barrels, R. H. Wood, Goshen, twenty-five barrele, H. B. Seeley thirty-five barrels. In Wood's order Bragg states that

THE ROMANCE OF THE TELEGRAPH.

Some of the Odd Difficulties of Operating a Line Through Queer Countries.

A good deal of romance hovers around the means by which the world's news is gathered. The speed and accuracy with which telegraph messages are transmitted between the uttermost parts of the earth is marvelon; when the conditions under which they are sometimes transmitted are considered

The Indo-European telegraph line offers a good illustration. It runs from London to Lowestoft on the east coast of England. It then dips under the sea to Emden, on the Corman coast, whence it passes through Germany to the Russian frontier. From this point the wire passes by way of Warsaw, Rowno, Odessa, the Caucasus, and Tiths to Persia, and by Tauris to Teheran, the capital of the shah's queer demain. There it joins the Indian government line which runs from the Persian capital to Bushire on the Persian gulf. Thence the wires run through Baluchistan, and complete the route by connecting at Karachi, in northern India. The operation of this immense stretch of line, passing through countries of such varying climates and general characteristics, is obviously one of much difficulty. On the snow swept steppes of Russia the wires are somerimes snapped like thread by the rapid flight of flocks of wild geese. The poles are cut down and made into firewood by the nomad tribes of the Caneasinn districts, and the cunning innkeepers of Georgia seek to boom their post horse trade by deliberately creating faults in the wires. In certain parts of the mountainous regions of Asia the maintenance of the solimny line involves no little personal risk and hardship to the staff hands. Communication is often cut off by avaluaches in the mountain districts, and the work of repairing after a spowfall of five or six feet is no light matter.

These mountain stations are provisioned with several months' supplies before the winter sets in, as the staff will be in teach with the rest of the world by the wire only until the spring weather opens out the passes. In these supplies are always included a liberal allowance of books and games wherewith to relieve the monotony of the tedious winter exile. - New York Sun.

THE SOUTHERN SUMMER.

It Is Claimed That While Long It Is Not Oppressire.

Wrong impressions are bard to cradiate from the human mind. In the north and west it is a popular delusion that southern summers are extremely not and oppressive, and that life here during the summer months is almost unbearable. This impression is formed upon no knowledge of the matter, but simply upon the assumption that, as we are nearer the equator, it must necessarily be much warmer than in more northern latitudes. An investigation of the accords of the government weather bureau will show that there is no ground for such an assumption.

Our summers are long, but they are not unpleasant. The heat in the north and we-r is much more oppressive during June, July and August than in the south Deaths from sunstroke are much more numerous there, and the heat is decidedly mere sultry. Our long evenings are delightful, and a sultry night is soldom experienced. Our laborers work in the fields all day long, and suffer less from the warmth than those

In a nutshell, our summers compare favorably with those of any section of the country, and our long, pleasant. warm season is a decided advantage. Our farmers can commence to work the land long before their northern and western brothers think of beginning, and can continue to utilize it months after they have stopped. In the towns and cities the residents are exempted from heavy expenditures for warm winter clothing, and for the larger portion of the year the only fuel burned is for cooking purposes.

In comparison with the north and west, it is doubiful if our long, pleasant summer is not as far superior to their short, blistering one as our short, mild winters are to their long, frigid ones -Montgomery (Ala.) Advertiser.

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof. Koch startled the world by promising to cure consumption with the Koch lymph and his complete failure to do Koch lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put in a claim for a medicine, which he had discovered and used, in his extensive practice, that would cure ninety-eight per cent. of all cases of consumption when taken in all 11s early stages. Time has proved that his assertion was based on facts gained from experience His "Golden Medical Discovery" has cured many thousand people in all parts of the was based on facts gained from experience His "Golden Medical Discovery" has cured many thousand people in all parts of the world, and Dr Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testified to the marvelous curative properties of his "Golden Medical Discovery." He has also written a Book of 1000 pages, profusely illustrated, which treats of Throat, Bronchial and Lung discases, also Asthma and Catarrh Mailed frie by the World's Dispensary Medical Association, of Buffalo, N. Y., on receipt of twenty-one (21) cents in stamps, to pay postage and wrapping only. Consumption, as most everybody knows, is first manifested by feeble vitality, loss of strength, emaciation; then local symptoms soon develop, as cough, difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs. It is earnestly advised that the "Discovery" be taken early and the latter stages of the disease can thereby be easily avoided.

To build up solid flesh and strength after the grip, pneumonia, ("lung fever"), exhausting fevers, and other prostrating diseases, it has no equal. It does not make fat like cod liver oil and its nasty compounds, but, solid, wholesome flesh.

WE ARE STILL CHAMPIONS. Coshen Defeated in Yesterday's Came

S to 6-The Ex-Champions Did Well at Hat but Couldn't Run Bases. We are still champions! Goshen's

representatives tried very hard, 5esterday, to win back their lost laurels, and from their stick work ought to have succeeded. But it is one thing to hit the ball and another to get men around the bases, and Goshen would have been credited with at least three or four more runs had it not been for stupid base running Wardrop gave the worst exhibition

of weakness in this respect ever seen on the grounds. He had an excellent chance to score, but stopped half way between second and third bases and returned at Lawler's command, to argue with that player as to whether he had touched second ba e or not. The argument was continued until Clinton returned the ball from centerfield, when Wardrop "dropped" to the clever ruse. He didn't reach home, as the next two batamen were easy victime.

Hoffman, in his eagerness to score, died at the home plate with no one out, and the next man sent a long fly to right field on which he could easily have ecored.

Hock also lost a chance to score by his timidity in "stealing" bases. He seemed glued to first base and only went to second when he ought to have continued on to third on Mil-

Tierney pitched a good game up to the sixth inning, only three hits not be liable. having been made off his delivery.

Farrell started out to pitch for the Middletowns and in the third, fourth and fifth innings the visitors took kindly to his delivery and six runs resulted. Bannigan then went into the box and Goshen scored no more.

The Middletowns got an earned run in the fourth inning on Clinton and Rice's two-baggers. Lawler's three-bagger and Clinton's sacrifice scored another in the sixth.

Three more runs came in in the eighth on a single by Agnew, two bases on balls and Hock's wild throwing. The score was tied in the ninth inning by Bradley on his hit and daring steals of second and third bases and Lawler's second three-bagger.

In the tenth Goshen went out easily, while Rice and Degnan scored on hits and errors.

Goshen took the defeat with poor grace and blamed the umpires for their decisions. Fortunately for Middletown Goshen's um; ire proved to ! e as "square" as the Middletown man and for this he was berated by he townsmen.

Miller, for the visitors, put up a great game in centre field. He accepted several very difficult chances and made a clean hit every time he went to bat.

A Spotted Storm - Great Need of Rain.

Yesterday's storm was a very spotted affair. Port Jervis was left cut. and while both rain and hail descended upon Otisville, at N w Vernon, but a little way removed, there was no storm, and the same is true of all the region south of this city. The drouth is every day becoming a matter of more serious proportions, indeed it is already calamitous to all the country.

THE COMMON COUNCIL

Two Special Meetings, Last Sight, But Little Business Transacted. Two special meetings of the Com-

mon Council were held, last evening. The first was to take action on the proposed taxpayers' meeting to vote upon the proposition to build a new academy. Mr. Bastian moved to rescind the

resolution passed at the last meeting and to make the date of the taxpayer ' meeting Oct. 8th. The motion was carried and Council adjourned. Mr. Sinsabaugh then moved that

another special session be held. Mr. Hirst wanted to go home, but finally consented to remain if any public good could be accomplished.

Mr. Sinsabaugh moved that the Street Committee be empowered to do necessary grading on Bonnell and Stanton streets and Like avenue. The motion was carried.

Mr. W. H. Townsend spoke of the change of street line on Stanton street: that it was established fiftee years ago and ought not to be changed now.

The City Engineer produced the original maps of the street, from which it was found that the survey was for a fifty foot street, but that property owners had encroached upon the line ten feet, making it a forty foot street.

It is probable that some of the proper les on the street will be damaged by the new survey, but according to the original maps the city will

### HOLD MY BABY PLEASE.

Mrs. Tinkey Takes Home With Her a Living Memento of Newton's Monument Dedication.

Mrs. James Tipkey, of Pellettown, was made a victim of the "hold my taby please" game at Newton, on monument dedication day. A neatly dressed woman asked her to hold her baby till she could speak to a friend in the dense crowd, a few feet away. Mrs. Tinkey was glad to accommodate her and took the child and has it still. She was obliged to take the baby home with her and, when it was not claimed, tried to place it in the county alms house, but the authoriies would not receive it.

CHIEF OF UNCLE SAM'S SCOUTS. Buffalo Bill and His Famous "Wild West" Show.

Col. W. F. Cody, or Buffalo Bill, as he is more familiarly known, is s well known at home and broad that little remains to be said abor him, except that he still stands at the head of pope of the greatest amusement concerns in this or any other country.

Associated with Col. Cody for a number of years has been Mr. Nate Salabury, a man of expanded ideas and keen perceptions of business qualities. To these two, for this season, has been added Mr. James A. Bailey, now and for a number of years the head of the great Barnum

NO SECRET IN THIS WOMAN'S CASE.

Mrs. Campbell Wishes Her Letter Published so that the aruth May Be

[SPECIAL TO OUR LADY EXADESS.] Of the thousands of letters received from women all over the world by Mrs. Pinkham, not one is given to the public unless by the wish of the writer. Thus absolute confidence is established be-

who is in ill health or ailing.

In the case of Mary E. Campbell, of Albion, Noble Co., Ind., her suffering was so severe, her relief so suddenly real ized, and her gratitude so great, that she wishes the circumstances published, in the hope that others may be benefited thereby. She says:—
"My physician told me I had dropsy

and falling of the womb. My stomach and bowels were so bloated I could not get a full breath. My face and hands were bloated badly. I had that dreadful bearing-down pain, backache, palpitation of the heart, and nervousness.

"One of my physicians told me I had something growing in my stomach; and the medicine that I took gave me relief only for a short time. I thought I must die. I began to take Lydia E. Pinkham's Vegetable Compound, and it worked like a charm. After taking the first bottle I could walk across the street, now I am well. I advise all my friends to take it." " BY E. CAMPBELL, Albion, Noble Co.

Mr. A. A. Snyder, Supt. Poor Farm, Winnesheik Co., says:-Last winter Mr. Robert Leach used two boxes of DeWitt's Witch Hazal Salve and cured a large running sore on his leg. Had been under care of physicians for months without obtuining relief. W. D. Olney.
